FINAL EXAM (95/100 POINTS)

CONGRATULATIONS!

Congrats on completing the course and passing the final exam.

You really know your stuff! Now show off to your network by sharing your badge on LinkedIn. You can access it right from your Dashboard.

View Your Badge

Before you go, would you mind taking a sec to fill out our quick survey? Your feedback will help shape future courses and let us know how we're doing.

Take Our Survey

You're ready for your final exam!

Remember:

- The exam is not timed.
- You need a score of 85% or higher to receive a Certificate of Excellence.

Instructions:

- You have **two attempts** to pass the exam. You may press **Save** at any time to save your answers indefinitely.
- When you're ready to submit your answers, press **Check**. You will see which answers you got right or wrong, and your grade will be at the top.
- If your score is 85% or higher, you will receive a Certificate of Excellence automatically.
- If your score is less than 85%, you may go back one more time to try for a passing grade. Take time to study your incorrect answers and reread the course material as needed. When you're ready, revise your answers and press **Final Check**. You'll see a notification whether you've passed or not.

Good luck!

1) What's wrong with the following code example?

```
<p class="lead">We are a consulting firm with twenty years of experience. <p>If you'd like to get in touch, please call us at 800-555-1234.</p></p>
```

☐ All the text is coded on one line

☒ A closing `<p>` tag is missing

☐ Class names must have at least five characters

☐ None of the above

2) What's wrong with the following code example?

```
<ul class="shopping-list"><p>Eggs</p><p>Milk</p><p>Butter</p></ul>
```

☐ Class names can't have hyphens

☒ `<p>` tags are the wrong tag to use here

☐ There's no such thing as a `` tag

☐ None of the above

3) What does the following code example do?

```
.caption {background-color: #ffffff;}
```

☐ Sets the background color of the `<caption>` tag to white

☐ Sets the background color of any tag with `<caption="true">` to white

☒ Sets the background color of any tag with `<class="caption">` to white

☐ Sets the background color of any tag with `<id="caption">` to white

4) What should go between the quotes in the following code example?

```
<img src="">
```

☐ Nothing; it should always remain blank

☒ The location or URL of an image file

☐ The CSS coordinates where an image should appear

☐ The class name, used in CSS to style the image

5) If the bottom margin of a `<p>` element is currently set to zero, which of the following could account for the fact that there is still space between two consecutive paragraphs on a page?

☐ The space between `<p>` elements cannot be removed using CSS

☒ The `<p>` elements automatically have `margin-top`, which must also be reset

☐ The `<p>` elements automatically have `padding`, which must also be reset

☐ The height of the `<p>` elements must be set in CSS to remove the space

6) Which image file type is *not* appropriate for use on the web?

☐ JPEG

☒ TIFF

☐ GIF

☐ PNG

7) GIFs are most appropriately used for which kind of images?

☒ Line art and illustrations

☐ Background

☐ Full color photographs

☐ Black-and-white photographs

8) What typefaces can appear on modern websites?

☐ Any typeface the designer owns

☐ Only typefaces pre-installed on Macs and PCs

☒ Any typeface that's licensed for web use

☐ Any typeface downloaded from the web

9) At what resolution should Photoshop files be prepared?

☐ 72 dpi

☐ 300 dpi

☐ 96 dpi

☒ All of the above

10) What property refers to the space inside a CSS box?

☐ height

☐ margin

☐ border

☒ padding

11) Which CSS property controls the size of a typeface?

☐ size

☒ font-size

☐ text-size

☐ type-size

12

12) Leading is roughly equal to which CSS property?

☐ line-leading

☒ line-height

☐ text-spacing

☐ line-spacing

13) What does the <div> tag do?

☐ Creates a box with a black border/outline

☐ Divides a page visually into columns

☐ Creates a horizontal rule

☒ Creates an invisible box that can be styled with CSS

14) During this course, we created buttons by

☐ Styling <a> tags with CSS

☒ Uploading images created in Photoshop

☐ Using the <button> tag

☐ Using the <div> and tags

15) In Google Chrome, the Web Developer Tools (activated with the "Inspect Element" menu item) provide the ability to

☐ View your page on different browsers and on different operating systems

☐ Permanently modify the HTML and CSS of public websites

☒ View the CSS being applied to any particular element

☐ All of the above

16) Which CSS property controls the color of a font?

☐ font-color

☐ fontcolor

☒ color

☐ None of the above

17) Tracking is roughly equal to which CSS property?

☐ line-spacing

☐ word-spacing

☒ letter-spacing

☐ line-height

18) Which CSS property controls the left/right/center alignment of text?

☐ alignment

☐ text-alignment

☐ line-center

☒ text-align

19) Charo has created the following CSS class selector to make some text 14 pixels large. Her HTML is correct, but the class is still not working. Why?

```
#date {
  fontsize: 14 pixels;
}
```

☐ She is using the wrong character in her selector for a CSS class.

☐ Her syntax for the 14 pixels value is incorrect.

☐ Her syntax for fontsize is incorrect.

☒ All of the above

20) The best-practice HTML tags for coding navigation menus are

☐ <title> and <link> tags

☒ and tags

☐ <div> and tags

☐ and <item> tags
